Turn Off the Gas.

Tuesday night the Kassadian Knights held a session in their parlors in the Boyd opera house block. In departing they neglected to turn off the gas and in consequence the apartments, which are in the fourth story of the building, fronting on Farnam street, have been lighted up both day and night. The light was still burning at a late hour lest still.

A Light Day.

Yesterday was a remarkably light day at police headquarters, only nine arrests being made up to 10 o'clock last night. Otto Lund, a bartender, was arrested for assaulting John Rosenfeld. A man giving his name as Frank Darling when arrested for vagrancy by Officer Early, announced himself as a deserter from the United States army. The other arrests were those of ordinary drunk-

The Caledonian Society No. 1. At the Tuesday evening of the Catedonian society it was decreed to hold the postponed dance and reception in Rowley's hall, Saturday evening, December 8. The general committee of arrangements, consisting of Messrs. Frank Burned, J. W. G. Louch, George Me-Dougall, William Watson and John C. Buchanan, will meet Tuesday evening to complete the arrangements. The members will meet with the committee. A resolution was passed requesting the Rev. Robert L. Wheeto accept an honorary membership and

act as chaplain. Hebrew Free School Pair.

The Hebrew Free School association gave a fancy fair and ball at the Exposition building Wednesday night. This association was established six months ago and founded a free school on Twelfth and Jackson streets. The object is to have the children of the members taught Hebrew exclusively after they have gone through the regular public school in the city. The fair was to raise funds for the school. About three hundred people were present and spent a most enjoyable evening. The younger members of the as-sembly danced until past midnight. About \$400 was subscribed and raised by disposing of the presents given by merchants in the

The Guards' Bazaar.

The guards' baznar attracted large crowds of people both upon the afternoon and evening of yesterday. In the evening the armory was almost uncomfortably crowded. Sales at the various booths went on briskly and financial results were very satisfactory. The vocal concert announced to take place was unavoidably postponed in consequence of the illness of Madame Young, but the selection from "Mr. Sampson" will be given on Saturday night. To-night the Apollo on Saturday night. To-night the Apollo Glee club will sing some of their favorite glees. The guard mounting is still continued at the close of each evening's entertain the college in charge ment. Each morning the officer in charge writes out his report for the approval of the

A Friend of Jamieson.

Mr. D. B. Stewart, an Aberdeen merchant who is staying at the Paxton, en route to Scotland, was spoken to yesterday concerning Jamieson, who died in Omaha a few months ago under rather suspicious circumstances. Mr. Stewart is acquainted personally with the deceased man's family, and having been a fellow classmate of Jamleson's, he naturally was conversant with his habits and customs. The Scotch newspapers, Mr. Stewart says, did not enlarge upon the circumstances connected with the death of Jamieson. The bare recital of the disease was all that appeared, excepting in one or two instances. Mr. Stewart described Jamieson as a most scholarly gentieman, atudious to a degree when he got down to work, but very much lacking in application. His passion for intoxicants, even in those days, was terribly developed. Mr. Stewart sails to-morrow for England on the Cunard steamer "Aurina."

An Outrageous Arrest.

Wednesday evening Mr. H. V. Blank, in company with Mr. Marshall, both of C. A. Stonehill's, went to Boyd's opera house. They became separated after the play and while Blank was standing in front of the entrance, waiting for his friend, Officer Monroe grabbed him by the coat collar informed him that he had been watching him for three nights and that he was going to arrest him, Black was astonished and asked why he was ar! rested. The officer replied for violating the hack ordinance. The patrol was called, and Mr. Black suffered the humiliation of being placed in the wagon before an immense crowd of respectable people, many of whom were friends and acquaintances of his. He protested at the station, but no one would listen to him. Finally he was al-lowed to send for his friend, Mr. Marshal, who bailed him out. Yesterday morning the case was dismissed, as the acting city attorney

said there was no cause for arrest.

When Blank was returning home from the station, he saw Officer Monroe coming out of the New York Chop house on Douglas street. He entered

and asked the cashier what was the matter with the officer. The young man replied that he was drunk. Blank will sue the officer

THEY MEET IN JAIL, Harry King's Murderess Visited by

Her Brother in the Jail. William Beechler, brother of Elizabeth Beechler, the woman who shot Harry King in the Paxton hotel in this city about two weeks ago, arrived in this city yesterday morning. He said that he was twenty one years of James Johnson, St. Louis, is a guest at the age, and that his home was in Cleveland, O. He follows the milling industry for a liveligood, and his father is a market gardener. When questioned as to his father's financial standing he stated that, at the present time, he could not be regarded as a wealthy man, but there was a time when he was considered wealthy. His father, he said, was in the employ of the British government in the military department. He got into difficulty with the heads of the government and was compelled to leave the country and all he had behind, in order to avoid arrest. When questioned concerning the murderess he said: "My sister left Cleveland about four years ago, but I do not know where she went to at that time. She was in

"Was she married to King!"
"Yes, sir, she was. They were married at buincy. Ill., about three years ago, King living the name of Legard."

'Have you documentary proof of that?" "We have. The marriage certificate is in the custody of a Chicago man, and when the trial comes he will be produced in court. They were married under the above said name, because King did not want to let his father know about his marriage.'

OBITUARY.

Death of Denis Dec, an Old Omaha Settler.

Denis Dee died Wednesday at his late residence, 1709 South Thirteenth street, at the age of fifty-six years. He leaves a wife and three sons. The cause of death was heart disease. Mr. Dee was one of five brothers who settled in this vicinity many years ago, the deceased having come to Omaha on November, 1854. In those days farming was about the principal occupation of the pioneers who ventured into these parts. He took up some land and entered upon its cultivation, Subsequently he removed to Florence, leaving there three years ago and coming to Omaha. Mr. Dee's life has therefore been spent within easy reach of the city whose growth he has witnessed from a scattering of pees and log buts to its present magnifi-ent proportions and importance. The de-ased was known to hundreds of people, and admired for his energy and integrity by all his acquaintances. The funeral will take place this morning from the late residence of the deceased, at 8:30 o'clock. The funeral services will be held in St. Patrick's church, after which the remains will be interred in St. Mary's cometery.

That First Ward Primary.
OMAHA, Nov. 30.—To the Editor of THE

called by the central committee at the Slaven called by the central committee at the Slaven house, which, as everybody knows, is kept by relatives of Tom Lowrey. Long before noon on Wednesday the Slaven house was packed with a very large number of working people from the street sweepers' gangs and Hugh Murphy's powers. Half of these men don't live in the ward but they were properly the ward but they were properly the ward but they were properly the said but they were properly they in the ward, but they were prought there and voted all the same. When Slaven was asked by William Tracey to divide judges of election he was told the house would elect the judges, and as the house was under orders of Slaven the ballot box was put in posders of Slaven the ballot box was put in pos-session of Lowrey's strikers. After the crowd had got in their votes they were marched back and forth around the block and voted two or three times over. The friends of Mr. Tracey protested in vain. Taey wanted to have some of the repeaters arrested, but the police on the ground had orders to remain there to prevent a disturbance, and so after this farce disturbance, and so after this farce and fraud had been going on a couple of hours and all appeals for fair play were dis-regarded, there was nothing else left than to open another polling place near by, where democrats, who actually live in the ward, could show their preference without being buildozed and rode over rough shod by the street sweepers and pavers who don't live in the ward. I feel confident that on a fair division of the actual democratic vote in the ward Mr. Tracey would be the choice of the majority, and I contend that his nomination, made as it was contend that his nomination, made as it was by democrats who have a right to vote in the First ward, is legitimate. If Mr. Lowrey had carried the primary by a majority of the legal democratic voters, Mr. Tracey and his friends would cheerfully submit. But when such barefaced fraud is perpetrated as was openly carried on by lowrey's backers Wednesday, he has no right to the support of any democrat that be

lieves in home rule. The Police Court. Frank Hutches, a tough who has been in jail three times inside of a week, was arrested again Wednesday night. He is a a powerful fellow and fought desperately. It took six policemen to put him in irons, and later he had to be chained in his cell to keep

him from injuring his fellow-prisoners. He was given fifteen days.
Frank Martin, an old crook and general hard case, was given forty days in the county jail for fighting. A couple of days ago he finished serving a ninety days' term in the Council Bluffs jail for stealing, and yester-day he pobbed up seronely and cast a vote day he nobbed up serenely and cast a vote for Pat Ford in the Third ward of this city.

The Camel's Humps.

Popular Science Monthly: Structurally, of course, the humps are nothingmere lumps of fat, collected under a convenient fold of the skin and utterly unprovided for in the framework of the skeleton. When the animal is at its best and well fed, they are full and plump, standing up on his back firm and upright; but on a long journey they are gradually absorbed to keep up the fires that work the heart and legs, and in the caravan camels which arrive at the coast, the skins hang over, an empty bag, upon the creature's flanks, bearing witness to the scarcity of external food during the course of his long, forced march from the interior. A starved small camel in this state of health far more closely resembles a Peruvian llama than anyone who has only seen the fine. well-kept beasts in European menageries or zoological gardens could readily

But water is even scantier in the desert than food; and against want of water, therefore, the camel has had to provide himself, functionally at least, if not structurally, quite as much as against the want of herbage. His stomach has accordingly acquired the power of act-as an internal reservoir, and he can take in as much water at the Bahrs or Wadys. where he rests for a while on his toil-some march, as will supply his needs for four or five days together. There are some differences in this respect, however, between the two chief varieties of the camel. The African kind is the most abstemious, and best adapted to sandy deserts, the Bactrian, a product of more varied and better watered country, is larger and stronger, but less patient of hunger and thirst, while at the same time it can manage to subsist and to make its way into somewhat

rockier and more rugged country.

ALL IN THE FAMILY.

Joe Redman's Inordinate Desire For

Public Office. There is a feeling in the Fifth ward that everything in connection with Redman's nomination was not on the square. It is said that he had a horde of relatives, part of whom were democrats, who worked incessantly to run in votes of any and all kinds. The bum element was catered to and taken in troops to the saloon across the way and filled with whisky and beer. It is claimed that a number who were not residents of the ward voted, nevertheless, and a few who ward voted, nevertheless, and a low who attempted it were scared away by being challenged. There are also hints of repeaters. It is even asserted that the judges of election were not sworn in, and things generally were conducted in a loose way, amounting almost to criminality. A resident of the ward said Weilnesday that to elect Redman to the council would re-

sult in every man in his extensive family con-nection being put on the city pay-roll. "Even at this time," he continued, "his relatives are very well provided for. Redean himself is inspector of weights and meas-ures: Hume, the inspector, is Redman's sonin-law; Tom Balley's son married Redman's faughter; J. Counsman is Redman's brother-in-law; Counsman's son married Bailey's daughter, and Harry Counsman of the city clerk's office is Redmond, ney, Ill., for a time, after which she went of the city clerk's office is Redmond's nephew. It's a close family combine, and with Redmond in the council it will be hard to break. In my opinion there is altogether too much favoritism among city officials at this time, and means should be taken to stop the mania for appointing relatives to fat places on the city pay roll. And nepotism is by no means confined to the Redmond family. I intend to do what I can to wipe tout of our city government entirely.

tout of our city government entirely.

Said another resident: "Redman is the most chronic of office-seekers in the city. I do not know of a man who seems to desire public place and notoriety more than he. His family is following in his tracks. When his term was about to expire as councilman ms term was about to expire as councilman some years ago, the people of this ward made up their minds to have nothing more to do with him. And they have religiously kept their resolution. They snowed him under a pile of votes when he tried to get back to the council. Though he has since a proceeding that the service his did position he repeatedly tried to regain his old position, he has not been able to induce the people to forget themselves to the extent of voting. His strengest effort to secure re-election was when the Holly water works steal was uppermost in the attention of the people. Redman was a Holly man, and to show his constituents how greatly he was working for their interests, he hung at the polling place, then in the en-gine house on Izard and Twentieth streets, a map of the city. On this map were a num-ber of little red spots, each of which repre-sented a fire hydrant, which the aspiring candidate promised to get for every street corner in his ward. But the people knew that the hydrants would come anyway, and told Joe that he couldn't ride himself in on them in that way, and left him at home. With him and several other Holly councilmen, who were drowned in the Holly freshet, the Holly jobbery died. Now old Joe is again attenting to ride into the council on an alleged popular and ward question. He is promising the people of one OMAILA, Nov. 30.—To the Editor of THE
BRE: Your report of the First ward democratic primary is incorrect in many particulars, and I ask you to give the public, and
especially the democrats of the Second ward
the facts as they are. The primary was
called by the central committee at the Slaven worker across the street for a glass of beer. Since Redman has been out of the council he has tried for every office except mayor in the gift of the city and county. He has been knocked out in each, as he ought to have been. We didn't want chronic office seekers, We want Joe to try and earn his living."

20 TO 6C DAYS.

This is a disease which has heretofore Baffled all Medical Science.

We have a Remedy, unknown to anyone in the World outside of our Company, and one that has NEVER PAILED

to cure the most obstinate cases. Ten days in recent cases does the work. It is the old chronic deep scated cases tout we solicit. We have cured hundreds who have been shandoned by Physicians and pronounced incu able, and we challenge the World to bring is a case that we will not cure in less than sixty days.

Since the history of medicine a true specific for Syphilis has been sought for be thever found until our

MAGIC REMEDY was discovered, and we are justified in saying it is the only Hemedy in the World that will positively cure, because the latest Medical Works, published by the best known authorities, say there was never atrue specific before. Our remedy will cure when everything else has failed. Why waste your time and money with patent medicines that never had virtue or doctor with physicians that never had virtue or doctor with physicians that never had virtue or doctor with physicians that cannot cure you, you that have tried everything else should come to us how and get permanent reflef, you never cange, it elsewhere. Mark what we say, in the end you must take our remedy or NEVER recover and you that have been safficted but a chort time should by all means come to us now not one in ten of new cases ever get permanents cured, Many get help and think they are free from the disease, but in one, two or three years after it appears again in a more horrible form.

This is a Blood Purifier and will Cure any Skin or Blood Disease when Everything Else Fails.
